

Montgomery County Behavioral Health Court

2024 Montgomery County Recovery and Resiliency Award Recipient

The Montgomery County Behavioral Health court is a specialty treatment court set up to prioritize treatment, support, and diversion for individuals with a mental health diagnosis who find themselves involved with the law. The supervision team is the backbone of the court, and tasked with the complicated mission of navigating legal requirements and the overarching goal to help people and positively impact their lives and their futures. This team was nominated for the award today because of their dedication to collaborating with treatment partners, approaching individuals served in the court with empathy and hope, and their efforts to meet people where they are on their own recovery journeys. They wrestle with difficult situations and are being recognized for their efforts to respond compassionately, hopefully, and creatively. Will the members of the team please come up to receive this award:

Donato Martinez- Treatment Court Officer Supervisor
