

# Kenya Boyle

## 2024 Montgomery County Recovery and Resiliency Award Recipient

Kenya Boyle, is an inspiration to many. Along her journey, Kenya has faced challenges that she has found the courage to use as opportunities to learn, grow, and strengthen her own toolbox of abilities. Kenya is a mother, a leader, an example to those who knew her. She began as a Certified Peer Specialist with Lower Merion Counseling and Mobile Services after an extended time away from the formal workforce, a feat that we all know takes guts, determination, and tremendous strength of character. Kenya later decided to interview for the Career Center Certified Peer Specialist position within Lower Merion Counseling and Mobile Services. Hiring Kenya was an easy decision, she had demonstrated an excellence at her work that made her a shoo-in. Kenya's colleagues describe what an honor it is to hear her story, watch her grow in her role, and be a part of the path forward she is carving for herself. Kenya is a strong advocate for the peers on her team. She is a leader who truly gets it. Someone who has fully been there. Those lucky enough to know Kenya are presented with clear evidence that recovery is possible and joyous. Kenya, please come up and receive your award.
